The Froedtert & MCW health network, which includes five hospitals, more than 1,700 physicians and nearly 40 health centers and clinics, draws patients from throughout the Midwest and the nation. In our most recent fiscal year, outpatient visits exceeded 1.1 million, inpatient admissions to our hospitals were 52,483 and visits to our network physicians totaled 979,143. Inspired by health-related conversations happening across the nation, the Minority Health Film Festival was created to extend those conversations in Milwaukee communities. The first of its kind in the country, this four-day event features unique film selections, community forums, and an interactive health fair, all related to information about the health statuses of racial-ethnic minority populations.
